

TRICARE 101 Health Plans & Special Programs

ABOUT THIS WEBINAR

TRICARE is the health care program for service members, retirees, and their families around the world. TRICARE provides coverage to all beneficiaries including health plans and special programs including TRICARE for Life (TFL), the Extended Care Health Option (ECHO), and the Autism Care Demonstration (ACD). It may be especially important for military families with special needs to understand who qualifies for these programs and the benefits to which they're entitled. This webinar provides special emphasis on TFL, ECHO, and ACD, and how providers can better support families as they navigate the TRICARE system. TFL is Medicare-wraparound coverage for TRICARE-eligible beneficiaries who have Medicare Part A and B. ECHO provides financial assistance to beneficiaries with special needs for an integrated set of services and supplies. ACD covers applied behavior analysis services authorized to target the core symptoms of autism spectrum disorder.

Learning Objectives:

After completing this webinar, participants should be able to

- Understand the differences between TRICARE health plans (TFL) and special programs (ECHO and ACD).
- Identify who is eligible for these programs.
- Review how to register or sign-up for TRICARE programs.
- Identify what benefits are associated with these programs.
