

Suicide Prevention and Working with Military Families

ABOUT THIS WEBINAR:

Become more informed on current military suicide data including trends and common risk factors. Join this free professional development opportunity to explore culturally competent best practices and resources for professionals working with service members or military families.

Learning Objectives:

Within this webinar, the presenter will:

- Share available resources for military families experiencing a mental health crisis.
- Analyze the research, comparing civilian and military trends in suicide data.
- Define appropriate terms and definitions used within the military to discuss suicide without stigma.
- Discuss ways to apply research and use the information in practice.
