

October 2022 | OneOp Family Development Monthly Newsletter

Greetings from OneOp Family Development,

October is National Learning and Development Month. Our programming at OneOp is created to educate and empower providers to increase the impact they have on military families and within military communities. We know that education and learning continue at each phase of life, from birth far into adulthood.

Education is the primary stepping stone to success
All the statistics show it. The more education we obtain — the
more successful we are in life. Research shows a link between
happiness and learning, so a committed learner is likely a
happier person.*

Across our network, we offer a variety of [free Continuing Education credits](#) for adults growing and learning every day. Our content is created for the use of service providers in clinical, mental health, and educational settings. We know that as you learn and grow in your professional role, you are also balancing your own physical, mental, and emotional well-being. We thank you for the crucial care you provide military families and communities and hope our content helps enhance that support.

This month, we celebrate our mission of adult learning and continued professional development to strengthen evidence-informed practice and expand the skills-sets of our service providers.

Mark Your Calendar for Upcoming Webinars:

RSVP now and mark your schedule for this month's webinars:

Wednesday, October 26, 11 AM - 12 PM ET

Service Animals: Rights and Responsibilities

This webinar provides information on the legal status of service animals, the legal status of emotional support animals, and the various laws that apply to determine those rights.

Watch New Recordings and Earn CE Credits

If you missed last month's live webinars, you can now watch the archived recording on your own time and earn Continuing Education credit hours!

Suicide Prevention and Working with Military Families

This webinar covers culturally competent best practices on current military suicide data, including trends and common risk factors.

1.5 CE credits are available for this session. CE opportunities are listed on the event page.

Understanding the Social and Structural Drivers of Food and Nutrition Insecurity

This session highlights social and structural determinants of food and nutrition insecurity and examines approaches for improving food access and equity for military families, and all families.

1.0 CE credits are available for this session.

Navigating Deployment: Strategies to Help Military Families

This presentation explores the deployment cycle and associated challenges from the perspective of different family members and identifies circumstances and family contexts that exacerbate the stress of being separated.

1.0 CE credits are available for this session.

Disability & Mental Health in the Military

This webinar discusses the intersection of disability with military service for service members and their families, looking closely at the impact of trauma on the brain and possible physical cues and reactions when a trauma response occurs.

1.0 CE credits are available for this session.

PSB-CY: Clinical Assessment and Treatment Overview Courses

On October 13th, we will launch our [PSB-CY: Clinical Assessment and Treatment Overview](#) course series.

New Resource Spotlight | Sesame Street for Military Families

Sesame Street for Military Families new [Learning & Growing Together](#) topic page was created collaboratively with the Defense Health Agency. The

These 4 self-paced courses have been created from evidence-based best practices and focus on youth between the ages of 9 and 14 with problematic sexual behaviors (PSB).

Visit the [course series homepage](#) to learn more and to prepare to learn how you can prepare for this upcoming programming!

new suite of resources features military kids Elmo and Rosita modeling the many feelings and experiences children may encounter in videos, printable activities, and articles. Parents, caregivers, and providers can draw from the resources to support kids in practicing flexible thinking, developing a “we can do it!” attitude, learning at home and on the go, and learning both together and apart.

Please forward this newsletter to anyone within your community or network that may be interested in our resources.

Sincerely,

Kalin Goble, M.S. (*she/her*)
