

Providing Affirmative Care to the LGBTQ+ Military Community

Photo by Kampus Production from Pexels

ABOUT THIS WEBINAR:

This webinar provides an overview of the continuums of identity, including sexual orientation, gender identity, biological sex, gender expression, the impact of discrimination, relevant healthcare disparities, and ways to encourage a welcoming care environment for the military-connected LGBTQ+ community. Attendees will be introduced to practical skills for integrating LGBTQ+ affirmative care principles into clinical practice.

Learning Objectives:

1. Identify terminology relevant to the LGBTQ+ Community
2. Understand the difference between sexual orientation and gender identity
3. Describe the role of minority stress theory on relevant healthcare disparities
4. Identify ways to enhance cultural competence and integrate affirmative care principles
5. Determine ways to apply research and use the information in practice
