

Learn how you can help increase food security for military families.

LIVE WORKSHOP

Building Networks to Alleviate Food Insecurity

This interactive session guides participants through the process of creating a food security “benefits resource guide” tailored to the location and populations they serve. Facilitators will lead activities designed to help family service providers immediately implement food security knowledge in their local communities. This 90-minute workshop uses the Spectrum of Prevention framework to encourage participants to identify and view programs and services in their communities in ways that can support efforts to reduce food insecurity among military families.

Facilitators:

Jessica Beckendorf

Facilitation Specialist and Community Development Educator
University of Wisconsin-Madison Extension and OneOp

Bob Bertsch

Communication Specialist
