

# Food Security in Focus

## Food Security in Focus

Among our nation's active-duty service members and their families, an estimated 24 percent are food insecure. Join OneOp as we focus on strengthening food security for the military family and mobilizing family service professionals to work together at federal, state, and local levels.

Food security is of high importance to Registered Dietitians and Registered Nutrition and Dietetic Technicians. Explore OneOp's *Food Security in Focus* series, which provides guidance on how to address food security in your community!

This series offers up to 20 CDR continuing education credits from 12 FREE on-demand webinars presented by experts in the field. Examine a few of the webinar offerings below, and visit the series homepage to view all programming in this series.

### **Understanding the Social and Structural Drivers of Food and Nutrition Insecurity**

Discover the social and structural determinants of food and nutrition insecurity and examine strategies and approaches for improving food access and equity in military families as well as all families.

### **SNAP and SNAP-Ed: Supporting Food and Nutrition Security in Your Community**

Explore how you can collaborate with your state and local SNAP-Ed programs to provide the best care possible to your clients and connect them to resources that can help.

### **Military Teen Experiences and Food Security**

Understand emergent data around military teens' experiences and current advocacy efforts to combat food insecurity in the uniformed services.
