ABOUT THIS WEBINAR:

For over 50 years, the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) has supported income-eligible women, infants, and children from diverse backgrounds, including military families. WIC improves nutrition security by providing nutritious foods, nutrition education (including breastfeeding promotion and support), and referrals to health and social services to program participants. Attend this webinar to learn about WIC’s rich history as a premiere public health program, including its role in improving maternal and child health outcomes, and hear about improvements in the WIC food packages and other innovations in the program.
