

Navigating Tricare's Autism Care Demonstration: A Guide for Providers & Military Families

ABOUT THIS WEBINAR

Join us for an informative webinar on the Tricare Autism Care Demonstration, a critical program designed to support military families with members diagnosed with Autism Spectrum Disorder (ASD). This session will provide an in-depth overview of the program, outlining the specific services and supports offered, eligibility criteria, and the enrollment process. Participants will gain a thorough understanding of how the Autism Care Demonstration works, including the types of treatments covered, such as Applied Behavior Analysis (ABA), and the role of healthcare providers. We will also discuss the recent updates to the program, potential impacts on families, and how these changes aim to improve access and quality of care for beneficiaries. Furthermore, this webinar will offer practical advice on navigating the system effectively, from obtaining the necessary referrals and authorizations to understanding the ongoing support and monitoring processes. Whether you are a service member, a healthcare provider, or a family member of someone with ASD, this webinar will equip you with the knowledge and tools needed to make the most of the Tricare Autism Care Demonstration program. Join us to ensure you are fully informed about the resources available to support the unique needs of military families dealing with ASD.
